Jenny's is pleased to announce "The Sun Also Rises," a highly subjective and celebratory survey of some of my favorite artists and painters, a few of which are showing in New York for the first time. Inspired by what experts have called the best novel of all time, the exhibition was meticulously curated and is the product of countless studio visits and conversations. More than just a handful of artists and canvases, it is the enduring vitality of painting and drawing that is on display here. It is my sincere hope that you and your family can find the time and curiosity to come see these wonderful works of art I have selected for you and reap the many rewards they have to offer.

The exhibition runs from August 13th to September 4th, 2021. An exhibition guide and leaflet with in-depth curatorial commentary is forthcoming.

Last but not least, I would like to express a very special thank you to those without which this exhibition would not have been possible: Michael Sanchez, the artists, and God.
